collection of detail drawings for
steel stud framing systems
including walls floors ceilings
roofs and more learn how to
use ssma products to create
efficient and durable structures
ssma framing details scafco
connection figure 1 below
shows a typical wall detail with
spliced studs in this case the
studs used to construct the wall
are standard 12 foot long
members while the required
wall height is 15 feet therefore
the contractor is required to
extend the members 3 feet by
splicing additional stud
sections to the 12 foot
members
