opportunity vs access what does it mean for inclusion

abac is a logical access control
methodology where
authorization to perform a set
of operations is determined by
evaluating attributes
associated with the subject
object requested operations

and in some cases environment
conditions against policy rules
or relationships that describe
the allowable operations

access does not require it it is
common practice for field
names to contain no spaces and
begin with a lower case letter it
is important for your field
names to be short meaningful
